Thanks so much for your note, Alexandra. We appreciate the participation from EPA in today's meeting and look forward to following up with you and others afterward.

Best,  
Elizabeth

Dear Elizabeth:

I regret I am unable to be with all of you this morning due to other commitments. I appreciate being on the lists. I also see that you have solid representation from EPA in Ms. Best-Wong, Dr. Orme-Zavaleta, and Dr. McLaine. Please let me know if I can be of further help as you refine your PFAS research work.

Kind regards,

Alexandra Dapolito Dunn, Esq.

**Subject:** Reminder: PFAS Meeting of Opportunity, March 4, National Academies Keck Center

Dear colleagues,

I wanted to send a short reminder to you about our Meeting of Opportunity tomorrow, March 4, at the **Keck Center of the National Academies, 500 Fifth Street, NW, Washington, DC**, to discuss a project idea we have in development on PFAS. We are mindful of the evolving weather but wanted to indicate that the National Academies will be open tomorrow and that we do plan to hold the meeting, as planned, from **09:00 – 11:30am in room 206**.

Although the current forecast for the District of Columbia appears to indicate little impact by the time of tomorrow's commute, we do recognize that travel for some of you may involve coming in from farther reaches and ask that you just keep Brendan ([bmcgovern@nas.edu](mailto:bmcgovern@nas.edu)) and me ([eeide@nas.edu](mailto:eeide@nas.edu)) informed if you anticipate any difficulties getting to the building. We can work offline with you to facilitate a remote connection, if needed. Those of you already joining remotely have the web conference information but can contact Brendan should you have questions.

I attach once more the agenda, participant list, and concept document and would like to share again the list of 'thought questions' we'd like you to consider for the first major segment of the meeting when we proceed around the table at 09:15.

1. What is the biggest challenge that you are currently facing (e.g., must be addressed within the next 6 months)?
2. What challenges do you face 1-1.5 years from now?
3. What longer-term challenges do you face?

Many thanks again and we look forward to seeing you tomorrow.

Best wishes,  
Elizabeth
